💬 French (native) | English (fluent)

After years in video production, I realized I'm **happier** when I'm **solving strange technical problems** and **making games**. Now, I **design** and **prototype** fun, **thoughtful player experiences**—focusing on **smart systems**, **smooth pipelines for the devs**, and building cool things with others.

Relevant experience

Technical Designer | *Curyeux* | Campus ADN, Montreal | *Mar 2025 - July 2025* ↗

- **Implementing core systems** (camera, aiming, save & load, subtitles, ...) and **gameplay features** using Blueprint.
- **Creating tools** for level designers.
- **Communicating** with art teams to **support asset integration** into the game.

Volunteer Mentor | Gameable mentorship program, Montreal | *Jan 2025 - Present* ↗

- Weekly **mentoring** of girls aged 8-16 to help them create their **first video game in Unity**.

Work experience

Game Design Consultant | *Cortex Quest* | Dawson College, Montreal | *Mar 2025 - Present*

- **Designing mini-games** for an **educational biology VR game** aimed at College students.
- **Establishing Code and Data standards** with programmers and 3D artists.

Video Specialist | PomGrenad Media, Montreal | *Jun 2021 - Jun 2024* ↗

- **Editing** and **directing videos** for online dance lessons

In-Engine Video Specialist | *Dual Universe* | Novaquark, Montreal | *Nov 2019 - Jun 2021* ↗

- **Coordinating** with teams to showcase **Alpha MMORPG development.**
- Working in **custom branches** with an in-house **version control** tool.
- Finding ways to **engage with the community**.

Education

Level Design ACS ↗
Campus ADN, Montréal
Aug 2024 - Present

Video Editing (B.A.) ↗
ACFA Multimédia, France
Aug 2017 - Jul 2019

Softwares

Unreal Engine (BP), Unity (C#), Godot (GDScript)

Perforce, Jira, Miro, Notion

Maya, Blender, Adobe Suite

Soft skills

Problem-solving
Quick-learner
Collaboration
Adaptability
Farseeing
Joyful

Hard skills

Modular logic
Scalability
Prototyping
